STANDARD

A
BEAUTIFUL
USE
OF
SPACE

A BEAUTIFUL USE OF SPACE

At Ideal Standard, we believe bathrooms should be living places not just functional spaces. For us, they're far more than just places to brush your teeth. They should be places to relax, to make yourself beautiful, to refresh and re-energise.

So, for the past 100 years we have been designing products to help you create your ideal bathroom.

Whether that is a place to escape, a boudoir, a playroom or a sanctuary, it is always a Beautiful Use of Space.

For further inspiration visit www.idealstandard.be

OUR RANGES

The designers we collaborate with have three things in common: Critical acclaim, design innovation and the desire to place your bathroom at the heart of their creativity. Our philosophy is to help you create the perfect bathroom for you. Whatever your bathroom size, your budget or needs, we aim to help you create A Beautiful Use of Space.

DEA

SHAPES TO INSPIRE

Dea's wide selection of beautifully proportioned, distinctively curved, slim-rimmed ceramics gives you plenty of scope for creating an individual yet harmonious look in your bathroom. Vessels, vanities, toilets and bidets: the high-end pieces come in different sizes, so you are sure to find a solution that suits your taste and space.

With its sophisticated curves, refined edges, hidden fixations and thin seat, this rimless Dea toilet is an object of beauty. From July 2015 also available with AquaBlade®.

Dea vanity with Melange fitting.
Softmood mirror with light.
Dea wall-hung toilet & bidet.

Dea basin unit in Glossy Light Grey finish with vessel. Melange fitting. Dea mirror with shelf and cabinet in Glossy Light Grey finish.

With its smooth-cornered, box-frame effect and single open shelf, this dual-purpose design is an unusual and attractive way to keep some of your favourite toiletries and bathroom essentials within easy reach.

Dea's slender column cabinets come in two heights, so you have the option of increasing your storage capacity vertically rather than crowding your bathroom with wider units.

Make a design statement with one of Dea's exquisitely thin-rimmed vessels, designed to sit elegantly on top of basin units or worktops. Separate taps lend a look of hotel-style luxury.

If you're a connoisseur of contemporary design, use sculptural showpieces from the Dea range to emphasise the high-end, cutting-edge chic of your bathroom.

Totem available with or without fitting hole.

Dea totem with Melange wall mounted fitting.

The Dea range reflects how you like to function. Body-friendly rounded corners and slim rims; integrated ambient lighting; a Bluetooth sound system built in mirrors; ingenious, spacious storage options to organise your basin area: it all adds up to an easy, uncluttered space with an air of calm indulgence.

The internal structure and functioning of each piece have been as carefully considered as the external, allowing you maximum use of the ample storage space.

Finishes for Dea

All of Dea's high-quality storage units come in a choice of gorgeous colours and textures.

Basin area

With Connect, creating the perfect pampering area is easy. Simply choose your favorite Connect basin or vanity, select a storage solution, and complete your choice with a Connect Blue fitting and accessories from the extensive Connect range. Everything works together beautifully.

Countertops

Create a clean hotel look with the Connect built-in washbasins. They are available in a large variety of forms and dimensions.

Create your ideal bathroom

Are you designing a large bathroom or a small guest bath? Connect offers an extensive range of options in intelligently designed sizes and shapes, and Connect Blue fittings ensure reduced water and energy consumption and improved water hygiene. You're sure to find exactly the right solution.

Vanity with frontal towel rail and Connect Blue fitting.

Vanity with vanity furniture in white and Connect Blue fitting.

Mirrored wall-hung unit.

Double vanity with vanity furniture in glossy white and Connect Blue fittings.

Also available in
back to wall version.

The Connect Cube basin balances strong, simple lines and a contemporary look with the Connect line's characteristic, softly rounded inner rim.

The beauty of Connect is that you don't have to choose between round or square, affordable or stylish. You can have it all. Mix and match ceramics, storage solutions and accessories to suit your taste and create your own unique pampering area.

Sphere/Arc basin unit, drawer detail.

A clever corner solution.

The soft closing seat & cover are „easy take off“ for optimal hygiene and easy cleaning. Connect WC is also available with thin seat and hidden fixation.

Good for the planet and your household bills. All Connect close coupled WCs include a dual flush system that reduces your water usage by up to 25%. Furthermore, Connect's wall-hung and floor-standing WCs have low volume flushing options that also save water.

CONNECT SPACE

CREATIVE
SPACE
SOLUTIONS

Your creative thinking doesn't have to be limited by the space you have available or the shape of your bathroom. Connect Space is specifically designed to provide compact, space saving bathroom products and intelligent storage solutions to help you make the most of all your available space. These products offer a host of innovative new ways to combine a clever use of space, with style. And, of course, Connect Space items are completely compatible with all other Connect family members.

GUEST ROOMS

GUEST ROOM AT A GLANCE

In this, the smallest room of the house, millimetres count. Designing a cloakroom is a real test in domestic ergonomics. To make the most of the space available, it's vital that the sanitaryware you choose is ultra-compact. Not only have we designed pieces specifically for tight spaces, but by thinking outside the box we've come up with some great tips for tiny rooms. We think you'll be surprised at what you'll be able to do with just a few square feet.

Every cloakroom is as individual as every house, but to give you an idea of what's possible, here are some key cloakroom solutions from our many ranges. Styles range from traditional to ultra-modern, but there's always a focus on saving space.

THE ULTIMATE COMBINATION OF STYLE AND PERFORMANCE

Introducing AquaBlade® flush technology, a unique development exclusively from Ideal Standard, which breaks the mould of usual WC flush systems.

EXCEPTIONAL FLUSH PERFORMANCE

The integral channel creates a pressurised cascade of water which flows round the bowl creating two strong jets at the front. These merge to form a powerful plume of water that drives away solid matter effortlessly.

DESIGNED TO LOOK BEAUTIFUL

With simple clean lines and contemporary styling, AquaBlade® Technology has been designed with aesthetics as well as performance in mind. There is no unsightly rim so only the smooth curves of the bowl are visible.

UNRIVALLED HYGIENE

AquaBlade® Technology outperforms all existing toilets in terms of hygiene.

Traditional toilets leave a significant area of the bowl unwashed particularly at the back of the bowl. The AquaBlade® channel is positioned close to the top of the bowl so 100% of the surface area beneath is rinsed clean every time.

AquaBlade® Technology is even more hygienic than leading rimless toilets. These may harbour bacteria around the shelf plus water can often splash over the bowl during flushing causing bacteria particles to be released into the air.

With AquaBlade® Technology, the optimised water pressure and the smooth curves of the bowl flush bacteria clean away with no unhygienic splashing.

EASIER TO CLEAN

AquaBlade® Technology powerfully rinses the whole bowl clean with every flush and its gentle curved shape makes it easy to wipe with minimum effort.

Tonic II WC

RIMLESS

Rimless WCs stand for innovative rinsing technology

A rimless WC stands for perfect hygiene and easy clean-up. Originally designed for places within a clinical environment but nowadays more and more used in private housing.

Why ?

As the closet has no border in the inside, it is very easy to clean. No chance for dirt, less cleaning products needed which means a gain of money and ecological friendly. And more free time to relax in your splendid Ideal Standard bathroom !

Exists also in 700 mm for less abled persons.

Rimless WC are available in DEA, SOFTMOOD, TONIC II, STRADA and CONNECT.

LIFELONG LIVING

HOME SWEET HOME

The trend to stay living in one's own home for as long as possible is increasingly popular.

Ideal Standard offers a wide range of solutions not only for disabled persons but also for middle-aged people with renovation plans.

Ergonomics and ease of use perfectly mixed with good looking design.

Ideal Standard's Connect Freedom range offers raised and extended toilets in different versions, including a rimless toilet and a XL-toilet for overweight people.

The rimless toilet offers optimal hygiene and is very easy to clean.

Washbasins have integrated handles for better grip, and you can choose special fittings to further enhance your experience.

The UltraFlat even floor shower trays, with IdealGrip film, prevent slipping in the shower.

Enjoy practical and safe living, with great design!

ARCHIMODULE

LIMITLESS FREEDOM. AESTHETIC PERFECTION.

Design your bathroom exactly as you wish – without ifs or buts. With the modular fittings system of Archimodule, you can choose individual solutions which are tailor-made to your requirements. The innovative fittings technology from Archimodule ensures the perfect look every time. Even unevenly plastered walls and fancy tile sizes are no problem.

Try the configurator: www.archimodule.idealstandard.be

Design:
ARTEFAKT

A wall-mounted rain shower as well as a shower rail with height-adjustable, pivoting hand shower offer all-round comfort. The thermostat allows temperature control. Each shower head has its own volume control, which makes it possible to use them both separately or simultaneously.

Limitless flexibility: Modular system

Archimodule's pioneering modular concept ensures absolute design freedom. The components of the fittings system can be combined just as you wish. You can choose freely among them and place them how you like. There are no restrictions on the way the modules can be arranged; there are practically no limits to design.

MODULAR BUILT-IN SYSTEM

Archimodule

Archimodule is a modular system. You can combine the edged design with other Ideal Standard products as Idealrain Pro and Strada fittings.

Perfect design: lines up precisely with the tile pattern

Archimodule's harmoniously designed components adapt perfectly to the tiled section. This way the solution you choose matches the design in your mind's eye exactly. This is made possible by a mounting rail under the rendering which allows the modules to be adjusted individually.

STRADA

AWARD
WINNING
DESIGN

Strada's taps have won a prestigious FI Design for style and practicality. They have also been specifically designed to match Strada's clean lines; so they're the final touch that completes the look of your bathroom.

As well as harmonising with Strada, they're also ergonomic masterpieces, allowing you to control temperature and volume – precisely, reliably, and intuitively. Their shape is a natural fit for your hand, as well as your look.

So whatever Strada fitting you choose, it will harmonise perfectly with your Strada basin, or vessel, or mirror, or furniture. Select your tap and basin combination carefully, and give your bathroom another style highlight.

Mara high spout basin mixer for an elegant design.

Exceptional design for everyone

Now you can enjoy cutting edge style and advanced innovation at an affordable price. Mara offers all the high-end design features you need in a stylish, modern package for maximum pleasure, every day.

Innovation you can afford

Equipped with the most advanced Ideal Standard innovations, the Mara range offers outstanding quality and functionality.

Practical and economical, you enjoy maximum comfort at a value price.

Hot water limiter and ceramic disk cartridge

Ecological and economical, the 35 mm ceramic disk cartridge (multiport cartridge for shower and bath/shower concealed models) allow you to easily control, monitor and reduce your water consumptions.

All basin models are also equipped with a hot water limiter which reduces the risk of burns.

Neoperl Cascade hidden aerator

This concealed stream regulator, with its unique construction, restricts limescale build-up. Even after being subjected to the ageing effects of lime, Neoperl Cascade aerators produce a straight, round, splash-free water stream. The sprout has no visible gap at the end, for a slick finish and easier cleaning.

GIO

SYNTHESIS OF CUBIC AND ROUNDED DESIGN

GIO is the harmonious synthesis of cubic and rounded forms. A modern fitting that fits in every bathroom is born, it integrates in the atmosphere without dominating it.

The slim proportions of GIO give your beauty area or bath corner a special lightness, from wash basin over bath to your shower the same elegant look.

Not only beautiful, but also the perfect solution for water saving thanks to the hidden aerator and the models which consume only 5 liters per minute when opening entirely. GIO is also equipped with a temperature controller.

WELL

Water Efficiency Label

A revolution in water saving and water hygiene

IdealBlue technology is a unique nickel and lead-free technology, designed specifically for basin mixers. Water passing through the IdealBlue technology never touches chrome or nickel; the copper pipes are not plated on the inside, while all water-bearing surfaces are made of plastic. IdealBlue technology anticipates and exceeds new European Drinking Water Directives.

IdealBlue technology

The water is never in contact with the brass body, but is passed through waterways of special plastics. Special hoses from specific nickel and lead-free materials. Innovative technology to save water, energy and money.

CERAPLAN III

RE-DESIGNED FOR CLASSIC BEAUTY

The contemporary, soft design ensures the range will sit perfectly in any space, enhancing the quality feel of your room within an affordable budget. The timeless nature of the product helps you create your ideal bathroom, as standard.

The new Ceraplan III range features basin mixers, shower mixers, bath and shower mixers and kitchen mixers, so you can easily install the new range to your existing or new bathroom and throughout the home.

Washbasin mixer with waste.

Bluestart

The Ceraplan III fittings feature a unique energy saving mechanism: "BlueStart" technology. This feature helps you save water, energy and therefore money by only delivering cold water, when the tap handle is in the middle position. This clever piece of technology means avoiding unnecessarily heating up water when you turn on the tap.

The new Ceraplan III fittings also feature click technology which can help save up to 50% of water. By only opening the mixer until you feel slight resistance, you get only 5L of water per minute delivered, without any loss in the flow as the water is mixed with air as opposed to 9L/min when the mixer is fully open, depending on pressure.

The new and improved Ceraplan III

These stunning fittings not only look the part, but also come with water and energy saving technologies, creating a timeless and contemporary selection of taps that offer comfort and practicality to help you achieve a beautiful use of space.

THERMOSTATS

Playa bath with Active bath and shower mixer,
combined with Idealrain handshower.

Playa bath/shower with bath screen, available in left and right version. Combined with Active bath and shower mixer and Idealrain showerkit.

CONNECT

FLEXIBILITY
THAT FITS
YOUR
DESIGN

Connect baths are available without or with hidden fixation and technology for easy access and water saving.

Design:
Robin Levien

Connect bathtub with Connect Blue bath and shower mixer,
Idealrain shower kit and Connect bathscreen.

WASHPOINT

DESIGN AND COMFORT

Washpoint baths exist in 2 designs.
Both offering an optimal freedom of use.

→ WASHPOINT

1. **Elegant form in 2 designs.**
The duo bath is available upon 1800 mm.

Ideal
Waste-
System

Washpoint bath 170 x 75 cm with Active fitting.

Duo bath has 2 different borders as on the product

ect picture below.

AQUA

PERSONALISED
PLEASURE

Aqua celebrates Ideal Standard's diversity with an extensive range of baths to suit all. With a host of accessories and features, there's the perfect bath for everybody. Design by Cornelia Thies.

→ AQUA

1. Aqua has an enormous range of forms and dimensions. Choose the perfect bath to create your ideal bathroom.

NEW ACTIVE

SMART SIMPLICITY

Enjoy the perfect balance of elegance and innovation, at a great price. Pure, rounded forms combined with clever functions and safety features to create Active: The ideal choice for performance, comfort and enjoyment, every day.

Design:
ARTEFAKT

Active rectangular bathtub.

HOTLINE PLUS

AFFORDABLE BATHING PLEASURE

The Hotline Plus bath range is standing for a wide variety of forms and sizes, high quality for a reasonable price.

From comfortable mono or duo baths with a thin border, to space saving corner baths and different shapes.

Your wish is our command !

Hotline Plus shower trays are available in two inside depths and in different shapes.

ULTRA FLAT

BIG SIZES, LOW PROFILE

For a stunning contemporary touch, while adding space and dynamism to your bathroom space, Ultra Flat shower trays are the perfect accompaniment. Choose from an extensive range of shapes and sizes. Design by ARTEFAKT.

With their sleek, low-profile design, Ultra Flat shower trays add a touch of contemporary style to your bathroom – and a real sense of space. Choose from an extensive range of shapes and sizes to fit almost anywhere.

**Ideal
Grip**

Ultra Flat floor even model

Clean-cut design gives your bathroom a sophisticated, spacious feeling, while low-profile surfaces mean maximum functionality and comfort. Floor-recessed installation makes an Ultra Flat tray almost unnoticeable – it becomes part of the bathroom floor.

Bathroom with Ultraflat showertray, Kubo shower enclosures, Softmood ceramics and furniture with Gio fittings.

TONIC

ELEGANCE
UNLIMITED

Tonic makes sophistication look effortless. Frameless edges and dynamic shapes meet with high-quality finishes to create the ultimate in long-lasting contemporary design.

8 mm safety glass,
transparent

Ideal
Clean

SYNERGY

WETROOMS
FEATURES

Minimalist design requires a high degree of attention to detail and innovative engineering to keep clean lines and a sleek finish.

Ideal Standard's innovative adjustable profile fixings not only make installation easy, even with out-of-true walls, but also cleverly conceals the silicone to give a clean finish that is so important to wetroom design. Bracing brackets and corner connectors help conceal fixings and aluminium floor and tray strips seal the panels to the floor or tray.

8mm

8 mm safety glass,
transparent and
also available with
mat zone (60 cm)

Ideal
Clean

KUBO

DESIGNED
FOR
EVERYDAY
LIVING

Sleek, modern and minimalist, Kubo is luxury without the price tag. Designed to look and feel sensational, it combines high quality materials with easy manageability for everyday showering pleasure.

6mm

6 mm safety glass,
available in mat or
transparent

Ideal
Clean

CONNECT

EXTRA LARGE OR SUPER SMALL

Everyone's shower space is unique. Connect offers just the right answer to your requirements, offering premium quality for easy cleaning and maintenance.

4 mm safety glass,

IDEALRAIN

RELAX
UNWIND
REVIVE

Idealrain helps you relax, unwind and escape. You can indulge yourself in a rain shower that you control to suit your mood. A long, hot shower gives you a deeply relaxing soaking. Lighter rainfall can revive the spirits, whilst a stronger stream gives you the feeling of reaching deep into your tired muscles and massaging them gently back to life.

Water
Saving

Design:
ARTEFAKT

Idealrain showerpipe with handshower Idealrain 100 mm with 3 functions, showerhead Idealrain 200 mm and Ceratherm 100.

IDEALRAIN CUBE

PURISMUS
PUR

Whether you want a simple shower kit or an all-in-one shower system, Idealrain Cube works. All Idealrain Cube handsprays and head showers are compatible with Ideal Standard thermostats, sliding bars and other Ideal Standard collections. So your shower can follow the geometry and the purity of your overall bathroom design.

Classic features

- Geometric shapes, pristine lines and angular forms
- Rain effect enhanced by spray nozzles to the edges of the wide face plates
- Fingertip controls and light, slender handsprays
- Advanced water-saving technology, with no flow loss

Water
SavingDesign:
ARTEFAKT

Strada built-in / Archimodule soft-handspray
and headshower Idealrain Cube.

TECHNICAL INNOVATIONS

FITTINGS

Click Technology

A simple-to-use function which limits both temperature and flow for everyday safety and economy.

IdealBlue Technology

An innovative technology to save water, energy and money with more intelligent water flow. A revolution in water saving and hygiene.

Adjustable Aerator

means you can eliminate splashing and avoid wasting water, with a single touch. Simply push the aerator's tilting plate to direct the flow to exactly the spot you want; reducing mess, cutting wiping time and saving water.

Cool Touch

No risk of burns here: Cool Touch technology means that whatever the water temperature the tap is 100% safe to touch.

Temperature Limiter

The temperature limit stop controls the temperature on the mixer when the tap is full on. This can be preset to suit your family's comfort and safety.

Top Fix

A fixation process from above which makes for easy assembly, quick tightening and guaranteed reliability.

Easy Fix

A simple, rapid fixation system with a connected joint-stirrup and pre-mounted screw.

Flow Limiter

A flow limiter reduces water wastage for economic and ecological benefits.

Bluestart

Helps you save water, energy and money by only delivering cold water when the tap handle is in the middle position.

Water Saving

FURNITURE

Soft Closing

Doors and drawers are equipped with a slowing device for slow and silent closing.

Space-saving Siphon

The basin siphon takes up little room and is easy for plumbers to reach and inspect.

Quality and Durability

Only the highest quality environmentally-friendly materials are used to construct our furniture. Each component is multiple-tested during fabrication to ensure its solidity, resistance and durability.

Easy Installation

Simple, quick and convenient, all our furniture comes preassembled. No adaptation is required for the installation of ceramics or fittings.

CERAMICS

NEW Idealflow

An invisible evacuation system for streamlined elegance. Easy to clean, maintain and install.

Dual Flush

Double-action flush with a choice of 3 or 6 litres of water for guaranteed water-saving.

Slow Closing

A slow-closing mechanism on seats and lids prevents slams, thereby reducing noise and heightening safety.

Hidden fixation

A hidden fixation system on suspended ceramic pieces ensures uninterrupted beauty.

Quality

Fabrication of our ceramics is still to this day, partly hand-made. Each piece is unique, recyclable and environmental friendly.

4,5 Liter

WC able to flush from 4,5 liter.

Rimless

WC without rim.

AquaBlade®

Revolutionary new flush technology.

SAVE WATER

For over 40 years, Ideal Standard has been committed to developing products that meet both present and future requirements for sustainability and eco-friendliness. Today more than ever, Ideal Standard strives to ensure that our products have as little impact on the earth's natural resources as possible. Our declared goal is to preserve our planet – now and for future generations.

Blue Responsibility

Under the joint title "Blue Responsibility", renowned brands of the sanitary industry present products that document their special expertise in the field of sustainable sanitary solutions.

Blue Responsibility

Nachhaltige Sanitärlösungen

Blue Responsibility is an initiative of the Fittings Trade Association (VDMA) and the Industry Forum Sanitation (IFS). It is supported by the VDS, the German Sanitation Industry Association. The aim of the initiative is to promote the responsible use of water.

WELL Water Efficiency Label

A single glance at the water efficiency label WELL provides information on how efficient fittings are in their use of water and energy. The system was developed by EUnited, the European Association of Valve Manufacturers, and differentiates between products for private households and public buildings. In the "Home" section, the user's comfort has priority, while "Public" valves should primarily conserve water and be hygienic. The additional category "Upgrade" comprises universally usable components.

Save Water, Energy and Money

An ecological attitude leads to the conservation of drinking water. In addition to protecting natural resources, conserving water also saves money. After inventing the first cartridge with ceramic sealing gaskets, Ideal Standard has constantly developed additional technologies that provide a very high level of sustainability. To name a few examples:

- Thermostatically controlled fittings and intelligent systems that quickly deliver water at exactly the desired temperature.
- Dual Flush toilets to reduce unnecessary water waste.
- Intelligent bathtub design: greater bathing enjoyment using less water, and materials that maintain the water temperature for longer.
- CLICK cartridge: Water savings thanks to 50% volume stop and energy savings thanks to hot water temperature control
- The BlueStart™ technology feature delivers cold water, when the tap handle is in the middle position. This clever piece of technology means avoiding unnecessarily heating up water when you turn on the tap.

Drinking Water Hygiene

Currently, there is a strong focus on the subject of drinking water hygiene. Only the use of high-quality materials and manufacturing processes ensures perfect hygiene. IdealBlue, CeraMix Blue and Connect Blue fittings offer a revolutionary technical innovation which brings an even greater degree of purity. Waterways completely separate from the body of the fittings and washouts. Washouts of heavy metals like lead and nickel into drinking water can be completely prevented.
